Wyland Foundation's Clean Water Mobile Learning Experience

Over 250,000 participants across the country have discovered the wonder of water in our Clean Water Mobile Learning Experience. This fascinating 1,000 square foot exhibit on wheels rolls directly into schools and events with an array of science exhibits, computer models, and actual running rivers and rain. Perfect for community events, festivals, and for supporting water unit studies for grades 4-8 and community events' attendees. The Clean Water Mobile Learning Experience is available now for your school or event.

Ready to roll into any school, festival or community event, the Wyland Clean Water Mobile Learning Experience provides an innovative solution to communicate the importance of the function of watersheds and gain a broader understanding of the impact that communities have on these systems and our ocean.

BENEFITS

- Easy event traffic flow
- Ties in with most school water units
- Discounted pricing available for schools, multiple booking dates, non-profit organizations, and educational events
- All-inclusive, fun and educational for the whole family
- ADA compliant
- Create a regional “Mini Tour”
- High visibility draw at events
- Video presentatin in “school” or “public” mode

Bringing the Wyland Foundation’s Clean Water Mobile Learning Experience to your school or event is easy! Each visit includes:

- On-board instructor
- Exhibit set-up and break-down
- Six interactive exhibits and 4-D theater
- Pre-event classroom activities and lesson plans
- Teacher’s guide and introductory training video for teachers/volunteers
- Event scheduling worksheets, guidelines and FAQ’s

Schedule a visit for your school or event today by calling 1 800 WYLAND-0 or 949.643.7070. Please ask for Tammy Glossip, or email us at cleanwater@wylandfoundation.org for additional information.

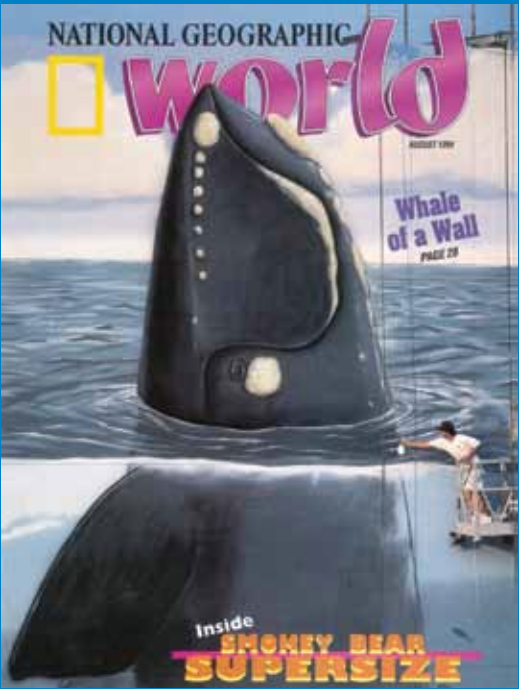

“The mobile classroom provides a tremendous opportunity for students, teachers, administrators and the community to learn about conserving and valuing our precious water resources.”
— William Habermehl, Superintendent of Schools, Orange County Department of Education

“Wyland teaches kids how the things people do miles away from an ocean or bay eventually can affect the quality of water there.”
— Washington Post

The Wyland Foundation is a proud recipient of the 2011 Orange County Department of Education’s Outstanding Commitment to Education Award.

About the Wyland Foundation

Founded in 1993 by environmental artist Wyland, the Wyland Foundation has helped children and families around the nation to rediscover the importance of healthy oceans and waterways through public art programs, classroom science, and live events. The foundation gives children the tools they need to become more creative, positive, and solution-oriented to address the issues of tomorrow. The foundation has served over a million children since its inception. The Wyland Foundation is a 501(c)(3) non-profit organization.

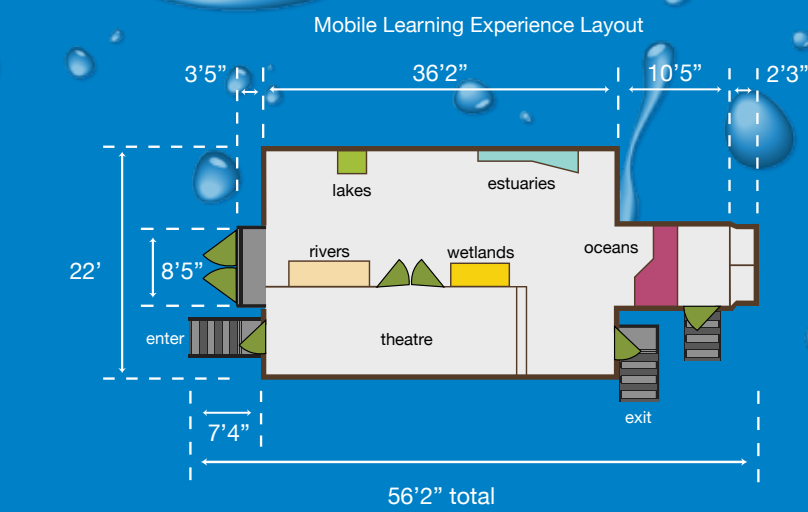

The Mobile Learning Experience is a fully interactive, one-of-a-kind learning experience. Each activity encourages participants to engage, play, experiment, and learn...

Guests will learn through an array of exhibits that lead them through a watershed, including:

- Discover an estuary’s food web through the “Wheel of (Mis)Fortune”
- Create actual rain over an urban watershed to understand impacts from pollutants
- Peer through a video microscope into the innerspace of wetlands
- Divert a flowing river to learn about water management
- Use computer modeling to see changes in a lake region over a 200 year period
- Make online pledges to conserve water and energy for the next year!
- Transform the entire class into a rain shower, learn about the water cycle, and follow an animated watershed in our 30-person on-board theater
- NEW-Large touch screen station featuring “our Watersheds, Our Legacy”

Get a sneak peek of the Mobile Learning Experience in action at www.vimeo.com/6038692 or learn more at www.wylandfoundation.org

Specifications

- Trailer Size: 56' 2" long, 13' 6" tall, 8' 5" wide (Expands to 22' total)
- Total length with tractor: 83' 2"
- Total Weight: 80,000 lbs.
- Parking lot allowance: 26 car spaces (2 rows of 13)
- Electrical: Can run on tractor generator. Requirements for shore power hook up: 208/3phase, 120amp minimal, 200amp max.
- Air Conditioned
- ADA accessible
- Estimated 3 hour setup time
